STCC: 32 952 32

Equipment: See each Item for application

Returned, Refused or Rejected Shipments:

When a given shipment has reached destination but is refused or rejected and not unloaded and is returned to the original shipping point for reasons other than railroad error; the returned movement will be subject to the rate and minimum weight in the reverse direction in effect on the date shipment is tendered for return or to the rate normally applicable for such return movement if lower. Routing for return movement will be applicable only via the reverse of the route over which the original shipment moves except in the case of emergency routing order.

The returned, refused or rejected shipment rule will not apply on commodities where a rejected shipment rule is published specifically to apply on such commodities or in connection with shipments subject to multiple car rates, if less than the originally shipped numbers of cars are rejected, the applicable single car rate will apply on the rejected, returned carloads of freight.
