This document is subject to the terms, conditions and guidelines provided in the Coastal Region General Tariff 1000.

The Coastal Region General Tariff 1000 Section VI provides guidelines and provisions for switching and other accessorial charges. Please review these provisions as it applies to your business on the RSSR.

Any charges not covered on this RSSR 7006 are subject to rules and provisions found in the Coastal Region General Tariff 1000 Series Tariff.

Handling of Empty Freight Cars

This provision will not apply when the empty movement is immediately preceded by a loaded revenue movement on RSSR and empty is returned to original interchange or if the empty movement is immediately followed by a loaded revenue movement on RSSR.

This provision applies on all types of rail cars, including, but not limited to, cars provided by railroads, leased cars and cars bearing other than railroad reporting marks, but not including passenger train cars.

The charge for movement of empty cars is $400.00 per car. RSSR will not be responsible for the payment of any per diem or mileage charges, nor will RSSR absorb any switch charges. This rate will apply only to movement of cars in regularly scheduled train service.

If special train service is required for movements other than those listed above, charges contained in the Charge Schedule on page 1 of this Catalog will apply.

RSSR's maximum liability for loss and damage is $100.00 per railcar.

Dimensional Load Charges

Minimum charge of $6,000 for a dimensional load. Please consult your Marketing Representative for a rate quote.

Re-Spotting Charge

When cars placed by RSSR at industry or team tracks for loading or unloading are released by consignee as loaded or empty prior to being completely loaded or unloaded, and such cars are moved by RSSR from industry or team tracks, they will be subject to a charge of $375.

The cars will remain on continuous demurrage transaction beginning with the date and time of initial placement and notification by RSSR.
