CHATTAHOOCHEE INDUSTRIAL RAILROAD

FREIGHT TARIFF CIRR 2000-A

NAMING FUEL SURCHARGES ON
LOCAL,PROPORTIONAL AND JOINT LINE RATES FOR
CHATTAHOOCHEE INDUSTRIAL RAILROAD

APPLICATION: This publication applies to: (1) all regulated common carrier linehaul freight rates existing or established by CIRR on or after November 1, 2012; and (2) all linehaul freight rates and charges with respect to exempt traffic, and linehaul freight rates and charges in contracts, private price quotations or other pricing documents, that both reference this publication and are entered into or issued and effective on or after November 1, 2012.

In the event the average price per gallon of highway diesel fuel (as determined below, the "HDF Average Price) equal or exceeds 200.0 cents, CIRR will apply a mileage-based fuel surcharge to the linehaul rates and charges described above. The fuel surcharge shall be applied to each qualifying shipment having a bill of lading or other shipping instruction dated on or after the first (1st) day of the second calendar month following the calendar month of a given HDF Average Price determination (e.g. a fuel surcharge applied beginning December 1 would be based on October's HDF average price).

The HDF Average Price for a given calendar month will be determined by adding the weekly Retail On-Highway Diesel Fuel prices reported on the U.S. Department of Energy Web site (eia.doe.gov), and dividing the result by the number of weeks so reported. The result will be rounded to the nearest tenth of a cent. If the Department of Energy ceases reporting of the price of Retail On-Highway Diesel Fuel, CIRR will employ a suitable substitute source of price or measure. Schedule reflects the applicable fuel surcharges within the HDF Average Price ranges noted in the table below.

Should the cost of fuel increase beyond the matrix, the increase will be $.01 per mile for each $.04 increase in the DOE fuel price index.

Fuel surcharge figures for each month will be posted at www.gwrr.com
