Flexible Asset Utilization…

The effective management of railcars is critical to the success of the TNER and our customers. Efficient asset utilization benefits you by increasing the availability of railcars.

From time to time, you may need to use our railcars for a longer period of time. In that case we provide you, at your option, with the use of that equipment, for a fee.

Extended use of railway provided assets

We give you free time for loading and unloading cars. If you choose to keep a railroad car, or a private car on railroad property, for additional time, you will be billed a simple flat daily fee. Daily charges do not apply to non-chargeable days, as defined in the Central Region General Tariff 1000 Section III, Demurrage and Storage Provisions, Page 22, Item 3090.

Our top priority is to provide safe, reliable transportation for our customers. Part of that commitment is to maintain a fluid and adequate supply of rail cars and to ensure that all railcar assets, both railroad and privately-owned, are utilized as optimally as possible.

Billing Disputes

We commit to addressing disputed bills quickly

If you believe that there has been a billing error, we want to make it right as quickly as possible. To be eligible for a review, you must submit your claim, in writing, within 30 days of the invoice date to: centralregion_disputes@gwrr.com or **Revenue Billing, 13901 Sutton Park Drive South, Ste 185, Jacksonville, FL 32224**. Along with a brief description, your claim must include the car initial and number and the related invoice number. Any claim not filed within thirty (30) days from the invoice date will be declined. All non-disputed charges should be paid within15 days of the date of the invoice.

Flexible Car Ordering…

Things don't always go as planned. We recognize that, sometimes, you will have to change your railcar order for loading or unloading. When this involves ordering an empty railcar for loading and actual or constructive placement is performed, and the railcar is then released without being loaded, it is classified as a *railcar ordered but not used.*
