Part 1. Reference Items and Miscellaneous Railroad Charges

Item 5 Participating Railroads and Parent Corporation

The railroad participating in this tariff: Buffalo & Pittsburgh Railroad, Inc.

Item 20 Description of Governing Classification and Exceptions

The term "Uniform Classification" when used in this tariff means:

Uniform Freight Classification, Uniform Classification Committee, STB UFC 6000-Series

Exception: Rules 13, 24 and 29 of UFC 6000-series do not apply.

Item 35 Station List and Conditions

This tariff is governed by the Official Railroad Station List OPSL 6000-series, issued by Railinc, Agent, to the extent shown below:

1. Prepay Requirements and Station Conditions

For additions and abandonment of stations, and except as otherwise shown in this tariff, for prepay requirements, changes in names of stations, restrictions as to acceptance or delivery of freight and changes in station facilities.

When a station is abandoned as of a date specified in the above named publication, the rates from and to such station as published in this tariff are inapplicable on and after that date.

2. Geographical list of stations

For geographical locations of stations referred to in this tariff by station number.

3. Station numbers

For the identification of stations when stations are shown or referred to by numbers in this tariff.

Item 170 Charges on a Per Car Basis

Charges assessed on a "per car" basis will be assessed against each and every car handled, whether loaded, partially loaded, or used as an idler, unless otherwise stated.

Item 185 Idlers and Trailers

Idlers or trailers on both road and local switching movements, or cars containing overflow or excess over carload, as per Rule 24 of UFC or exceptions thereto, will be treated as loaded cars.

Part 2. Reciprocal Switching: Rules and Charges

Item 650 Application of Reciprocal Switching Charges

- A. Reciprocal switching charges in this section apply only to and from industries served by BPRR as identified in this Tariff, on shipments originating at or destined to points within the switching district of the station at which the switching service is performed, except as otherwise provided in this tariff.
- B. When the rates in Items 755 are not absorbed (not included in through freight charges invoiced by the connecting railroads), BPRR will assess and invoice a processing fee of:

 \$ 90 per car

 (in addition to the applicable rates contained in these Items). In such cases all charges will be assessed against and invoiced to the party responsible for freight payments.
- C. The date of the actual physical interchange of the loaded car determines the application of switch charges, whether absorbed or not.
- D. Reference to commodities named in this tariff shall be made by STCC number, as set forth in the Standard Transportation Commodity Code Tariff, STCC 6001-series.
- E. When shipments contain explosives or other dangerous commodities, the seven digit 49-series STCC number must be shown on the bill of lading by the shipper.
- F. **High / Wide (over dimension) shipments, all hazardous commodities that are classified as “poison inhalation hazard (PIH)” or “toxic inhalation hazard (TIH),” and radioactive materials are not covered by switch charges named in this tariff, with the exception of Contaminated Soils, “dirty dirt” defined by STCC: 4029101, 4029105 & 4029106 . Please contact BPRR Marketing Department at (585) 463-3353 for information and pricing.**

Pierce Milling, Inc., Delevan, NY

(a) In private cars.....	\$ 857
(b) In railroad supplied cars	\$ 915

Part 3. Glossary of Terms and Abbreviations

Item 1100 Glossary of Terms and Governing Definitions

For the purpose of applying the provisions of this tariff, the following are defined and will govern:

Interline Traffic: Road-haul traffic moving over two or more railroad lines.

Loaded Car: A car that is completely or partially loaded.

Private Car: A car that is owned or leased by an entity other than a railroad.

Railroad Controlled Car: A car which is owned or leased by a railroad. (Cars carrying marks of TTX Company are considered railroad controlled for purposes of this tariff.)

Reciprocal Switching: A type of interline switching where connecting railroads have access to each other's open switching limits on a reciprocal basis. Term applies to Buffalo & Pittsburgh RR, interline carrier who has switching arrangements with connecting railroads.

Road-haul Traffic: Traffic received from or moved to a point outside of the switching limits of the same station or industrial switching terminal moving on a revenue waybill.

Switching District: The particular tracks and/or geographical description which BPRR makes open to connecting railroads for interline or reciprocal switching.
