FLEXIBLE ASSET UTILIZATION...

The effective management of railcars is critical to the success of GR and our customers. Efficient asset utilization benefits you by increasing the availability of railcars.

From time to time, you may need to use our railcars for a longer period of time. In that case we provide you, at your option, with the use of that equipment, for a fee.

Extended use of railway provided assets

We give you time for loading and unloading cars. If you choose to keep a railroad car, or a private car on railroad property, for additional time, you will be billed a simple flat daily fee. Time will be computed from the first 0001 hours after tender. Holidays and weekends are considered chargeable days.

Loading or Unloading:	24 Hours
STCC 01, 11, 14 or 32	\$50 Per Day
STCC –all others	\$100 Per Day

All cars must be released at the same time. The clock does not stop until the last unit is released.

There is no charge if the unit train's consist of private cars and are placed on private tracks except in cases where the power and crew are required to stay with the train. In those cases the customer may elect to release the power and crew in lieu of accumulating demurrage. The charge for release of power and crews is \$2,500 for each occurrence.

FLEXIBLE CAR ORDERING...

Things don't always go as planned. We recognize that, sometimes, you will have to change your railcar order for loading or unloading. When this involves ordering an empty railcar for loading and actual or constructive placement is performed, and the railcar is then released without being loaded, it is classified as a *railcar ordered but not used*. Charges defined in the GR 6006 Series Tariff apply.

30/30/30-DAY BILLING GUARANTEES
