

Bulk Transfer Services

Located in the heart of the Mid-Atlantic

York Rail transfer services are customized to meet your requirements. We offer a range of available options from complete transfer and inventory management to simple access to our modern terminal facilities. The following are some of the advantages of using York Rail Logistics Services:

Flexibility

We connect to three (3) Class 1 carriers that include CSX Transportation, Norfolk Southern and Canadian Pacific. This provides you the flexibility to utilize a single transfer facility for your products arriving from multiple locations at the most competitive price.

The railroad serving the terminal is owned and operated by the York Railway Company. This means we have the ability to respond to your expedited requests.

Product Transfer

Trained personnel ensure your product integrity is maintained, transferred safely and in an environmentally compliant manner.

York Rail Logistics Services transfers liquid and dry bulk products from or to railcars and trucks for local pick-up and delivery. Our highly trained personnel transfer food grade and non-food grade products such as sugars, sweeteners, oils, minerals, plastics and chemicals.

Security

Our new state-of-the-art bulk transfer terminal is fenced, paved and lighted. We provide a secure environment for your products.

Quality

Our terminal operation has constant supervision by our dedicated logistics team. We inspect the rail and truck transportation equipment as well as sampling your product to help ensure the quality of your supply chain.

Customer Service

York Rail Logistics can manage the entire delivery link to your customer. Our dedicated customer service team can order and release rail cars, coordinate the truck transportation to your customer and provide the remote administrative support needed to ensure accurate documentation and inventory control.

Location

Located at the hub of the Mid-Atlantic region, York Rail places its customers' product within a two-hour drive of major industrial centers in Philadelphia, Washington and Baltimore, via major highway connections to I-83, I-80, I-81, Route 30 and I-76 and the Pennsylvania Turnpike.
