This document is subject to the terms, conditions and guidelines provided in the Canada Region General Tariff 1000.

The Canada Region General Tariff 1000 Section VI provides guidelines and provisions for switching and other accessorial charges. Please review these provisions as it applies to your business on the GEXR.

Any charges not covered on this GEXR 7006 are subject to rules and provisions found in the Canada Region General Tariff 1000 Series.

Handling of Empty Freight Cars

This provision will not apply when the empty movement is immediately preceded by a loaded revenue movement on GEXR and empty is returned to original interchange or if the empty movement is immediately followed by a loaded revenue movement on GEXR.

This provision applies on all types of rail cars, including, but not limited to, cars provided by railroads, leased cars and cars bearing other than railroad reporting marks, but not including passenger train cars.

The charge for movement of empty cars is \$300.00 per car. GEXR will not be responsible for the payment of any per diem or mileage charges, nor will GEXR absorb any switch charges. This rate will apply only to movement of cars in regularly scheduled train service.

If special train service is required for movements other than those listed above, charges contained in the Charge Schedule on page 1 of this Catalog will apply.

GEXR's maximum liability for loss and damage is \$100.00 per railcar.

Inspection of Hazardous Materials Cars on Railroad Property

When a hazardous material car is held in the yard at the request of the customer exceeding five (5) calendar days, the cars must be inspected every forty-eight (48) hours. The customer will be assessed a charge of \$40 per car, per inspection. These charges will be assessed on a monthly basis.

Dimensional Load Charges

Minimum charge of \$5,000 for a dimensional load. Please consult your Marketing representative for a rate quote.

Car Ordering by Specific Number

When a customer has cars in railway yard and orders in a particular designated rail car or specified series of rail cars (i.e., what is known as "Cherry Picking"), a switch charge of \$200 per car will apply if further switching of additional railcars is required in order to accommodate the request.
