Extended Asset Use

Flexible Asset Utilization...

The effective management of railcars is critical to the success of GEXR and our customers. Efficient asset utilization benefits you by increasing the availability of railcars. From time to time, you may need to use our railcars for a longer period of time. In that case we provide you, at your option, with the use of that equipment, for a fee.

Extended use of railway provided assets

If you use our railcars for a longer period of time, you will be subject to our debit/credit system which calculates credits and debits to arrive at a monthly total. If credits exceed debits, no charge will be incurred. If debits exceed credits, the charges below apply per debit. Billing will only include cars placed within the calendar month. At no time will credits be shared between loading and unloading events.

Note: Debits do not apply to non-chargeable days, as defined in the Canada Region General Tariff 1000 Section III, Demurrage and Storage Provisions.

Flexible Car Ordering...

Things don't always go as planned.

We recognize that, sometimes, you will have to change your railcar order for loading or unloading. When this involves ordering an empty railcar for loading and actual or constructive placement is performed, and the railcar is then released without being loaded, it is classified as a *railcar ordered but not used*.
