Surcharges:

The surcharge payments shown below are payable by the shipper or consignor on outbound shipments and receiver or consignee on inbound shipments at San Joaquin Valley Railroad Co. stations on shipments originating or terminating at said stations. Empty Cars Ordered and Not Used from the Union Pacific Railroad or BNSF Railroad

When an empty car is rejected by the shipper as being unfit for loading or if it is not the correct equipment ordered and the car was originally received from the BNSF or the Union Pacific Railroad, a charge of \$475 will be assessed to Union Pacific or BNSF. This item supersedes any other published charge for this activity.

Call Outs/Car Repairs

When it is necessary for Carrier to close or open doors, hatches, gates or secure tie down devices on empty or loaded cars, a charge of \$175 will be assessed against the customer releasing said car. In addition, when Carrier is required to repair damage to cars caused by customer, all costs of repairs will be charged to the customer. Outbound loaded cars or released empty cars will not be moved unless all doors, hatches, gates and tie down devices are secured.

Ordering Cars by Specific Car Number

Customers ordering cars in by specific car number, versus date order as they were received in carrier's yard, will be assessed a charge of ^\$150 per car unless otherwise covered under a separate agreement.

Railcars Rejected by Customer as Unsuitable For Loading Customer-Refused Loaded Cars

Empty railcars rejected as unsuitable for loading and loaded railcars refused at destination without being unloaded are allowed two days of free time for inspection and release. Customers choosing to keep railroad-owned cars, or private cars on railroad property, beyond that time will be billed the Extended Asset Use charge as listed in the current SJVR Tariff.

Handling of Empty Freight Cars

This provision will not apply when the empty movement is immediately preceded by a loaded revenue movement on SJVR and empty is returned to original interchange or if the empty movement is immediately followed by a loaded revenue movement on SJVR.

This provision applies on all types of rail cars, including, but not limited to, cars provided by railroads, leased cars and cars bearing other than railroad reporting marks, but not including passenger train cars.

The charge for movement of empty cars is ^\$400 per railcar. SJVR will not be responsible for the payment of any per diem or mileage charges, nor will SJVR absorb any switch charges. This rate will apply only to movement of cars in regularly scheduled train service.

If special train service is required for movements other than those listed above, charges contained in the Charge Schedule on page 1 of this Catalog will apply.

SJVR's maximum liability for loss and damage is \$100.00 per railcar.

Method for Submission of Forwarding Instructions

SJVR will accept forwarding instructions through one of three methods at no charge; ShipperConnect (e-BOL), a Class I web site, or by making arrangements directly with third party logistics services providers to submit forwarding instructions on their behalf via a Class I web site or via EDI. SJVR will accept forwarding instructions to its Customer Service Group via fax (1-989-797-5171) or via email (SJVR-cs@gwrr.com), subject to a \$75.00 charge per faxed or emailed bill of lading. This charge will be assessed to the online Customer of record with the railroad.

The SJVR reserves the right to reject as an unreasonable request for service, any "fax" or "email" forwarding instructions that are illegible, whether due to poor transmission quality, poor or illegible handwriting, or otherwise. SJVR will not accept delivery of forwarding instructions by US Mail, express service, personal delivery, or otherwise.

Method to Release Empty Railcars

SJVR will accept empty release information using Customer Service Group via fax (1.989-797-5171) or via email (SJVR-cs@gwrr.com) subject to a \$75.00 charge per faxed or emailed release. This charge will be assessed to the online Customer of record with the railroad.

Date and Time Record on Notification

When electronic or mechanical devices are used to furnish forwarding instructions and/or empty release information to SJVR, the recorded date and time at which the instructions are received by SJVR will govern.
