

Western Labrador Rail Services (WLRs)

provides rail service to mining companies operating in Labrador and the Quebec North Shore.

The company was created in 2010 to haul iron ore over a 31-kilometer railway from Bloom Lake, Quebec, to Wabush, Labrador, in some of the harshest operating conditions in North America.

WLRs operates the heaviest trains in North America.

WLRs is part of Genesee & Wyoming Canada (GWCI) which is headquartered in Montreal, Quebec. GWCI includes nine short line railroads and three switching operations in four Canadian provinces and three U.S. states. GWCI also provides rail service to six ports in Eastern Canada.
